

Fan Manufacturers Association
Australia and New Zealand Inc.

Certificate of Membership 2010/11

Fanzone Pty Ltd

This is to certify that the above company is a member of the Fan Manufacturers Association Australia and New Zealand Inc. and through this membership pledges its support and contribution to the development of the non-domestic fan equipment industry.

FMA-ANZ aims to

- Develop communication networks to provide representation for the non-domestic fan equipment manufacturing industry in Australia and New Zealand.
- Increase the profile of the non-domestic fan industry into government and non-government organisations who are stakeholders of associated industries.
- Increase the profile of the non-domestic fan industry into government and non-government organisations who are stakeholders of environmental associations.
- Increase the profile of the non-domestic fan industry into government and non-government organisations who are stakeholders of safety associations.
- Develop the education of engineers in the design, application and use of non-domestic fan equipment and systems.

FMA-ANZ wishes to

- Develop systems of self-regulation to be incorporated within the framework of the Minimum Efficiency Performance Standards (MEPS) in Australia and New Zealand.
- Work with Standards Australia and New Zealand to effect changes in appropriate standards.
- Represent the non-domestic fan industry's views and capabilities in the following bodies: ISO, Standards Australia and New Zealand, Australian Building Controls Board (BCA), DEWHA 10 Year Refrigeration Strategy, DEWHA Motor Standards and Testing Facilities.
